Visitors should plan to arrive at least 30 minutes before their scheduled ferry departure time and drive directly to the baggage area. This procedure allows the time necessary for dock staff to assist in unloading baggage from cars and loading it onto the ferry baggage dollies. Visitors also have time to purchase their ferry tickets at the ticket window. Bald Head Island ferries run on a set schedule, leaving the mainland on the hour and leaving the island on the half-hour. It's about a 20-minute trip in each direction. NOTICE: Security procedures may be implemented that have the potential to lengthen processing time. Guests who arrive near the time of scheduled ferry departure risk missing the ferry and subsequent island appointments.

OVERVIEW

THE ISLAND COMMUNITY

Bald Head Island is a boat-accessed residential and resort island community with 14 miles of beaches, rolling dunes, freshwater lagoons, a nearly 200-acre maritime forest preserve and approximately 2,000 developed acres. Approximately 10,000 acres of salt marsh and tidal creeks bordering the island to the north have been deeded to the State of North Carolina to be left undeveloped. Preservation of the island's natural, historical and cultural heritage is an ongoing commitment of the developer and is the basis for several programs jointly sponsored with property owners.

Transportation to the island is by passenger ferry or private yacht, and island transportation for property owners and guests is by tram, golf cart, bicycle or foot.

DEVELOPER

Bald Head Island Limited, LLC, a company owned by the George P. Mitchell family, purchased the undeveloped portions of the island in 1983 and oversees the island's development. Bald Head Island Limited, LLC manages real estate development and sales, island operations, restaurants and an on-island property management program.

ARRIVING BY PRIVATE YACHT

(910) 457-7380, VHF CHANNEL 16

For those who cruise to our shores, Bald Head Island Marina is a 10-acre harbour offering slips from 30 to 100 feet in length. With floating docks and standard amenities, the harbour comfortably accommodates large and small pleasure craft and cruisers. Monthly and daily slip rates are available.

Water and electrical hookups are available with most slips. Many slips have cable television hookups. Gas and diesel fuel, showers, restrooms, laundry facilities and a pump-out station are provided for convenience. Two restaurants and a convenience store are also located beside the harbour. A full-service supermarket is centrally located on Maritime Way, near the corner of Muscadine Wynd and Federal Road.

ISLAND GUESTS

HOW TO PACK

Guests should pack as if traveling by plane, even if driving. Since guests travel to the island by ferry and transfer to a small tram, a limited amount of baggage is recommended. When guests arrive at Bald Head Island's mainland ferry terminal, their bags are placed in luggage dollies and loaded aboard a passenger ferry. Nametags are required on all luggage and boxes, and are available at the ferry landing. Luggage should be limited to no more than three checked pieces and two carry-on pieces per person. Loose items such as jackets, shoes, tennis racquets and fragile items such as laptop computers, video cameras or golf bags

without covers must be hand-carried. Open-top bags, boxes, grocery bags and coolers cannot be transported in dollies. These items must be hand-carried aboard the ferry. Anything that cannot be considered checked luggage at an airport may be considered carry-on luggage by Bald Head Island's transportation system.

PETS

No pets are allowed in any Bald Head Island Limited rental accommodations except for service pets, such as guide dogs, or in accommodations designated pet-friendly. An additional fee may be charged for accommodations that allow pets. Pets are not allowed inside the ferry passenger cabin.

SPECIAL CARGO

Passengers must purchase special cargo tickets for large, bulky items such as bicycles, which require special handling. Larger items such as windsurfing boards may require more than one special cargo ticket, depending upon size. Surfboards do not require a special cargo ticket, but must be hand-carried aboard the ferry. Due to sharp edges, greasy parts and cumbersome size, bicycles, windsurfing boards and other such items may not be loaded on the trams that carry passengers and luggage to their accommodations. These items will be stored at the island ferry terminal for guests to retrieve later with their accommodations' golf cart. Due to limited cargo space on the ferries, we will make every effort to transport special cargo items within six hours of guest's ferry time. Make sure special cargo items are brought to the island terminal sufficiently in advance to ensure their timely loading for departure.

IDENTIFICATION TAGS

We request that guests put their names on all luggage and boxes. Luggage tags are available at the mainland and island ferry terminals.

ARRIVING ON THE ISLAND

When guests with tram reservations disembark the passenger ferry at the island ferry terminal, they should go to the baggage claim area to collect their baggage. Outfitters will assist in loading baggage onto guests' assigned trams. Guests are asked to keep an inventory and make sure all their belongings are loaded. Items left at the island ferry terminal will be held for the guest to claim to the best of our ability. The security of these items is not guaranteed.

ELECTRIC CART SAFETY

Bald Head Island Limited rental units are provided with at least one four-passenger electric cart that is located at the rental home. There are no gears, only forward and reverse. Carts should be recharged after each use. Recharging for at least six hours during each day of stay is recommended.

By law, all drivers must be at least 16 years

of age and have a valid driver's license. The speed limit on Bald Head Island is 18 mph. Drivers must observe all North Carolina state traffic regulations and laws. Village police officers enforce all regulations and laws on the island and will issue fines for traffic violations.

All passengers must be seated while the cart is in motion. Carts should be driven on paved or graveled surfaces only and should not be parked in traffic lanes. Driving on the golf course, beaches or dunes is not allowed. Cart drivers are asked to move to the right of the road to allow trams and service vehicles to pass on the left.

NATURAL PRESERVES

BEACHES

Our beaches are one of our most prized resources. Here you can walk, play in the surf and shell for hours. The dunes, however, are fragile, and their

BROOKE THOMAS

preservation is of prime consideration on the island. Traversing dunes damages vegetation and increases erosion. Walking on the dunes is prohibited by the Village of Bald Head Island ordinance and violators may incur a fine. Designated public beach accesses are conveniently placed.

Fourteen miles of pristine beaches rim the island's west, south and east shores. Since no life-guards patrol the beaches, swimmers are advised not to swim alone, out too far, or at night. Emergency phones are located at nine beach accesses, and life rings are located at most beach accesses.

SALT MARSH AND CREEKS

More than 10,000 acres of salt marsh and tidal creeks are deeded to the State of North Carolina in perpetuity to remain undeveloped. The creeks and marshes are home to clams, crabs, oysters and a wide variety of fish, as well as numerous water birds. Dolphins and alligators occasionally venture into the creeks.

MARITIME FOREST

The forest is filled with a variety of trees, including live oaks, dogwoods, sabal palms, cedars, yaupons, wax myrtles and junipers, which form a thick canopy over Federal Road and many lanes and wynds through the forest. Nearly 200 of the island's 1,000 total acres of maritime forest are deeded to the State of North Carolina to remain undeveloped.

BALD HEAD WOODS NATURE TRAIL

Under the guardianship of the Bald Head Island Conservancy, this nature trail off Federal Road in the Maritime Forest Preserve leads to and around a centuries-old live oak tree with a girth of 216 inches. When last measured its average crown spread 84 feet.

M. KENT MITCHELL NATURE TRAIL

Visitors may enjoy this lovely 20-minute walking trail at the edge of the maritime forest, along the salt marsh and over a tidal creek to a marsh inlet, with many labeled plant species along the way. A marker at the beginning of the trail is located on Federal Road, just east of the intersection with Muscadine Wynd.

CONSERVANCY WILDLIFE OVERLOOK

Located off Stede Bonnet Wynd, this scenic overlook provides a serene view of one of the island's many freshwater lagoons and its woodland setting. The site offers off-road parking, a wooden walkway and a spacious deck with railings and benches for viewing the flora and fauna.

(910) 457-9700 AND WWW.VILLAGEBHI.ORG

by ad valorem property taxes. A Village manager and support staff administer the daily business of the Village. Offices are located in the Town Hall across from Old Baldy Lighthouse. The Village also employs a fire chief, building inspector, paramedic/firefighters, police chief and officers. Tax revenues provide services such as fire protection, police, emergency medical, garbage collection, building inspection and road, median, and beach access construction and maintenance.

BALD HEAD ASSOCIATION

(910) 457-4676 AND WWW.BHNEWS.COM

Most Bald Head Island property owners become members of a property owner's association. Dues are payable each year as determined by the respective boards of directors of the associations. The associations, through their many committees, are active in civic affairs. LANDMARKS AND HISTORICAL SITES

OLD BALDY LIGHTHOUSE

Known as "Old Baldy," North Carolina's oldest standing lighthouse was built in 1817 and is the island's most prominent landmark. For a \$3 minimum donation to the Old Baldy Foundation, visitors and residents may climb the 108 steps to the top for a panoramic view of the island.

BALD HEAD DUNE

The island's namesake high dune or headland was used by river pilots to sight approaching ships and by ship captains as a landmark. Located on the southwest point of the island at the mouth of the Cape Fear River, this dune was visible from far out at sea and resembled a bald head.

U.S. LIFE SAVING STATION

Quarters for servicemen of the U.S. Life Saving Service were established on East Beach in 1882 and relocated to South Beach in 1914. Life saving boats were housed in an outbuilding that is the only remaining structure, now a private home located on Sea Lavender Court.

Situated on Bald Head Creek, this structure was once used to shelter wooden vessels that brought food and supplies for people manning the Cape Fear Lighthouse and the U.S. Life Saving Station.

FORT HOLMES SITE

CAPTAIN CHARLIE'S STATION

Built in 1903, these three clapboard cottages overlooking Frying Pan Shoals were named for Captain Charles Swan and housed the lighthouse keepers and their families. They are now listed in the National Register of Historic Places and are privately owned.

CAPE FEAR LIGHTHOUSE FOUNDATION

The concrete base of the lighthouse that Captain Swan manned is still firmly anchored in the dunes near the original brick house where lantern fuel was stored, and which is now a part of the BHI Conservancy campus. Built in 1903, the lighthouse was decommissioned in 1958 and subsequently destroyed when the more modern Oak Island Light was built and placed in service.

CAPE FEAR AND FRYING PAN SHOALS

The southeastern tip of Bald Head Island takes its name from the shoals stretching 20 miles out into the Atlantic Ocean. Cape Fear is one of three North Carolina capes, which also include Cape Hatteras and Cape Lookout.
